## **MPH Corporation undertakes nationwide discount agreement with health insurance providers**

Schönefeld, 12<sup>th</sup> July 2011 - Since July 2011 the company HAEMATO PHARM AG, a pharmaceutical manufacturer from Brandenburg that belongs to the MPH group, is discount contract partner of the Allgemeine Ortskrankenkassen (AOK), Betriebskrankenkassen (BKK), Industriekrankenkassen (IKK) and other public health insurance funds. With this the MPH group now has discount contracts with nearly all public health insurance providers.

Within the scope of the undertaken discount agreements the subsidiary HAEMATO PHARM AG supplies up to eight high value active substances - amongst others granisetron and anastrozol -, which are primarily used in the treatment of cancer diseases.

The discounts benefit the people insured in the public health system in Germany, as they lead to stabilisation of the premiums at an optimum level of care. The reduction of the service costs aspired by the health system is thereby supported.

With this step the MPH group strengthens the oncological business area. The strategy for the extension of the product portfolio in the area of the chronic diseases is viewed as being confirmed at the corporate headquarters in Berlin. Further active substances are planned for 2011.

The core business of the MPH group is the development and acquisition of market authorisations for patent-free pharmaceutical products, as well as the provisioning with patent-protected pharmaceutical products for chronic diseases. The product range comprises of the indication areas oncology, HIV, neurology and rheumatic diseases as well as heart and circulatory diseases, and is being continuously extended. The company MPH regards itself as being partner for the cost-conscious provisioning of pharmaceutical products.

The company MPH Mittelständische Pharma Holding AG is listed in the open market segment of the Frankfurt stock exchange since 01<sup>st</sup> September 2009.
