### **MPH Mittelständische Pharma Holding AG: Provisional figures of 2009 suggest sustainable increase in turnover and return in the last fiscal year**

Today, on 22 February 2010, MPH Mittelständische Pharma Holding AG presents its provisional figures for 31 December 2009.

According to these figures, the company generated a turnover of 62.2 m euro during its first year in business (short business year: 06 March 2009 until 31 December 2009). Earnings before interest and taxes (EBIT) was approx. 6.0 m euro, and earnings before interest, taxes, depreciation and amortization (EBITDA) was approx. 6.2 m euro.

Profitability of the MPH group is fully determined by HAEMATO PHARM AG, Schönefeld. This wholly-owned subsidiary, which conducts operational activities, generated a turnover of 67.5 m euro in its fifth year in business (01 January until 21 December 2009), thus increasing the turnover by more than five times the amount of the previous year (2008: 12.8 m euro). Earnings before interest and taxes (EBIT) was approx. 6.5 m euro, and earnings before interest, taxes, depreciation and amortization (EBITDA) was approx. 6.7 m euro.

More and more pharmacists, physicians and patients trust in generic and original drugs imported from within the EU. This is why the company is counting on a continued sustained growth in 2010.

---
